Share Offer

This Offering Supplement is supplemental to, and must be read in conjunction with, the Prospectus issued by the Company.

The offering of the Investor Shares at the Initial Offering Price opened on 8 August, 2018 and closes on the Closing Date. The Company shall issue Investor Shares in connection with appropriately completed Subscription Applications received during the Initial Offering Period, on the Business Day following the Closing Date. The Company is entitled to close the Initial Offering Period at any time prior to the Closing Date or to extend it beyond the Closing Date and this at its sole discretion.

During the Offering Period, the offer will be for Investor Shares at the Offering Price applicable on the relevant Subscription Day.

Purchase, Transfer and Exchange of Shares

Investor Shares can be purchased at the prevailing Offering Price, by submission to the Company at the office of the Administrator or to any other entity duly appointed by and acting on behalf of the Company of the relevant and properly completed Subscription Application prior to the cut off time for receipt of applications for the relevant Share Class.

Payment should be effected as described in the Payment Forms which are available from the Investment Manager and/or the Administrator and/or any other entity duly appointed by and acting on behalf of the Company. At the Company's discretion, payments may be accepted other than in cash. All payments for Investor Shares must be made in the base currency of that class of Investor Shares and be received in Cleared Funds in any event on the applicable Settlement Day.

Any applicable bank charges will be borne by the Subscriber.

If the Subscription Application or associated Cleared Funds are not received as required, then the Subscription Application may be rejected or held over until the next Subscription Day at the discretion of the Company. In the event that an application is rejected, application monies will be returned without interest by telegraphic transfer to the remitting bank at the discretion of the Company at the risk and expense of the Subscriber. Subject to the satisfaction of the requirements set out above, Investor Shares shall be issued to successful Subscribers on the relevant Subscription Day.

The Administrator will generally issue written confirmation of ownership to a Shareholder within two (2) Business Days after the applicable Subscription Day. Investor Shares will be issued on the applicable Settlement Day.

Full details of the application and subscription process appear in the Section of the Prospectus entitled "**Purchase, Exchange and Transfer of Shares**".

A Subscription Application and other related documentation will be provided upon request by the Administrator, the Investment Manager or by an Authorised Distributor.

Redemption of Shares

Investors are directed to the Prospectus where the procedures relating to the Redemption of Investor Shares and the conditions applicable thereto are outlined.

Investor Shares can be redeemed at the prevailing Redemption Price, by submission to the Company at the office of the Administrator of the relevant and properly completed Redemption Notice before the Redemption Notice Deadline. Redemption requests received after the cut off time for receipt of redemption requests will be processed on the following Redemption Day.

In terms of the Memorandum and Articles, redemption requests and/or exchange requests are, once made, irrevocable. A Redemption Notice if accepted by the Company will be effective as at the applicable Redemption Day. Investor Shares shall be cancelled on the relevant Redemption Day.

Redemption requests will generally be settled within ten (10) Business Days from the relevant Redemption Day.

Full details of the redemption process appear in the Section of the Prospectus entitled "**Redemption of Shares**".

A Redemption Notice and other related documentation will be provided upon request by the Administrator, the Investment Manager or by an Authorised Distributor.

Deferral of Redemption

The Directors may in their exclusive discretion limit the total amount of redemptions effected on any Redemption Day to 10% of the outstanding Investor Shares in the Sub-Fund on that day (in each case before processing request for the issue of the Investor Shares or requests for redemptions of such Investor Shares for such Redemption Day). In such circumstances the Company or its authorised agent may scale down pro rata the number of Investor Shares to be redeemed in response to each request for redemption to the extent necessary to ensure that the foregoing limit is not exceeded, and shall carry forward the balance for redemption as at the next Redemption Day and so on to each succeeding Redemption Day until each request has been complied with in full. Requests for redemption carried forward from an earlier Redemption Day shall have priority over later requests.

Risk Factors

Investors are directed to the Offering Memorandum where the risk factors applicable to investment in shares of the Company, including in Investor Shares, are explained.

General Risk of Investing

The technology sector represents a speculative investment and involves a high degree of risk. Investors should have the financial ability, sophistication/experience and willingness to bear the risks of any investment in the Sub-Fund and should consider the specific nature of areas such as robotics, artificial intelligence, cyber security, big data, IOT, blockchain and megatrends related to technology prior to making any investment decision.

Investment in Collective Investment Schemes managed by the Investment Manager

The Sub-Fund may invest in collective investment schemes managed by the Investment Manager. In this case, the Investment Manager shall re-imburse the Sub-Fund any Investment Management Fee and/or Performance Fee, as well as any Subscription and/or Redemption Fees, received in connection with the Sub-Fund's investment in the target collective investment schemes.

In all other cases, that is where the Sub-Fund invests in collective investment schemes that are not managed by the Investment Manager, the Sub-Fund may (besides management fees and performance fees which will be reflected in the performance of the investment) incur charges such as subscription and redemption fees upon investing or redeeming its units or shares. Such charges will be borne by the Sub-Fund as with any other brokerage or transaction charges or expenses as set out in the Prospectus.

Pricing

The calculation of the NAV of the Sub-Fund and of the NAV per Share shall be effected by the Administrator as at the close of business on every Valuation Day on the basis of the closing prices on that day and in such

manner as is stated in the Prospectus under the section entitled "**Net Asset Value Calculation**". The Offering Price will be available from the Administrator and will be published on the website of the Administrator.

Duration of the Sub-Fund

The Duration of the Sub-Fund and the Classes is indefinite.

FEES PAYABLE BY THE SUB-FUND

Investment Management Fee

The Company will pay the Investment Manager an Investment Management Fee of 2.50% per annum of NAV in respect of the Class A Shares and 1.00% per annum of NAV in respect of the Class B Shares. The Investment Management Fee will accrue on every Valuation Day and shall be payable monthly in arrears.

The Investment Manager will be reimbursed for all properly incurred and approved out-of-pocket expenses.

Performance Fee

Class A Shares

The Investment Manager shall receive from the Company in respect of the Sub-Fund a performance fee in respect of each Investor Share outstanding on each Valuation Day equal to 15% of the amount by which the NAV per Share exceeds the Base Net Asset Value per Share.

The Base Net Asset Value per Share is the greater of the Net Asset Value per Share at the time of the issue of that Investor Share and the highest Net Asset Value per Share achieved as at the end of any previous Calculation Period (if any) during which such Investor Share was in issue. The Performance Fee in respect of each Calculation Period will be calculated by reference to the Net Asset Value before deduction for any accrued Performance Fee.

The Performance Fee will be deemed to accrue as at each Valuation Day and shall be payable quarterly in arrears and normally within fourteen (14) calendar days of the end of each Calculation Period.

The Performance Fee will be calculated in respect of each Calculation Period.

In the case of Investor Shares redeemed during a Calculation Period, the accrued Performance Fee in respect of those Investor Shares will be payable within fourteen (14) calendar days after the date of redemption. In the event of a partial redemption, Investor Shares will be treated as redeemed on a first in, first out basis.

A transfer of Investor Shares will be treated as if there was a redemption of such Investor Shares by the transferor and a subscription (at the most recent Offering Price) for such Investor Shares by the transferee on the date of the transfer for the purposes of the Performance Fee.

If the Management Agreement is terminated during a Calculation Period, the Performance Fee in respect of the then current Calculation Period will be calculated and paid as though the date of termination were the end of the relevant Calculation Period.

The Investment Manager may from time to time and at its sole discretion and out of its own resources decide to rebate to intermediaries and/or Shareholders part or all of the Management Fee and/or Performance Fee. Any such rebates may be applied in paying up additional Investor Shares to be issued to the Shareholder, or may (at the discretion of the Investment Manager) be paid in cash.

Equalisation Adjustments

If an investor subscribes for Investor Shares at a time when the Net Asset Value per Share is other than the Peak Net Asset Value per Share, certain adjustments will be made to reduce inequities that could otherwise result to the subscriber or to the Investment Manager.

The Peak Net Asset Value per Share ("**Peak Net Asset Value per Share**") is the greater of EUR100 (being the price at which Investor Shares were issued on the first Business Day following the Closing Date) and (ii) the highest Net Asset Value per Share in effect immediately after the end of the previous Calculation Period in respect of which a Performance Fee (other than a Performance Fee Redemption, as defined below) was charged.

- (A) If Investor Shares are subscribed for at a time when the Net Asset Value per Share is less than the Peak Net Asset Value per Share, the investor will be required to pay a Performance Fee with respect to any subsequent appreciation in the value of those Investor Shares. With respect to any appreciation in the value of those Investor Shares from the Net Asset Value per Share at the date of subscription up to the Peak Net Asset Value per Share, the Performance Fee will be charged at the end of each Calculation Period by the automatic forfeiture by the Shareholder in favour of the Sub-Fund of such number of the investor's Investor Shares as have an aggregate Net Asset Value (after accrual for any Performance Fee) equal to 15% of any such appreciation (a "**Performance Fee Redemption**"). An amount equal to the aggregate Net Asset Value of the Investor Shares so redeemed will be paid to the Investment Manager as a Performance Fee. The Sub-Fund will not be required to pay to the investor the redemption proceeds of the relevant Investor Shares. Performance Fee Redemptions are employed to ensure that the Investor Fund maintains a uniform Net Asset Value per Share. As regards the investor's remaining Shares, any appreciation in the Net Asset Value per Share of those Investor Shares above the Peak Net Asset Value per Share will be charged a Performance Fee in the normal manner described above.

Class A Shares (15% performance fee)

Peak NAV	=	100
Gross NAV* at date of purchase	=	90
NAV at date of purchase	=	90

Gross NAV* on the Valuation Day	Total Performance Fee due from Investor	Portion of Performance Fee to be paid by deduction from Gross NAV*	Portion of Performance Fee to be redemption of Shares from Investor for no consideration (Performance Fee Redemption)	NAV (net of all fees)
110	3	1.5	1.5	108.5
100	1.5	0	1.5	100
90	0	0	0	90

* Gross NAV is equal to the Net Asset Value per Share before accrual of the Performance Fee.

- (B) If Investor Shares are subscribed for at a time when the Net Asset Value per Share is greater than the Peak Net Asset Value per Share, the investor will be required to pay an amount in excess of the then current Net Asset Value per Share equal to 15% of the difference between the then current Net Asset Value per Share (before accrual for the Performance Fee) and the Peak Net Asset Value per Share (an "**Equalisation Credit**"). At the date of subscription the Equalisation Credit will equal the Performance Fee per Share accrued with respect to the other Investor Shares in the Sub-Fund (the "**Maximum Equalisation Credit**"). The Equalisation Credit is payable to account for the fact that the Net Asset Value per Share has been reduced to reflect an accrued Performance Fee to be borne by existing Shareholders and serves as a credit against Performance Fees that might otherwise be payable by the Sub-Fund but that should not, in equity, be charged against the Shareholder making the subscription because, as to such Investor Shares, no favourable performance has yet occurred. The Equalisation Credit ensures that all holders of Investor Shares have the same amount of capital at risk per Share.

The additional amount invested as the Equalisation Credit will be at risk in the Sub-Fund and will therefore appreciate or depreciate based on the performance of the Sub-Fund subsequent to the issue of the relevant Investor Shares but will never exceed the Maximum Equalisation Credit. In the event of a decline as at any Valuation Day in the Net Asset Value per Share, the Equalisation Credit will also be reduced by an amount equal to 15% of the difference between the Net Asset Value per Share (before accrual for the Performance Fee) at the date of issue and as at that Valuation Day. Any subsequent appreciation in the Net Asset Value per Share will result in the recapture of any reduction in the Equalisation Credit but only to the extent of the previously reduced Equalisation Credit up to the Maximum Equalisation Credit.

At the end of each Calculation Period, if the Net Asset Value per Share (before accrual for the Performance Fee) exceeds the prior Peak Net Asset Value per Share, that portion of the Equalisation Credit equal to 15% of the excess, multiplied by the number of Investor Shares subscribed for by the Shareholder, will be applied to subscribe for additional Investor Shares for the Shareholder. Additional Investor Shares will continue to be so subscribed for at the end of each Calculation Period until the

Equalisation Credit, as it may have appreciated or depreciated in the Sub-Fund after the original subscription for Investor Shares was made, has been fully applied.

If the Shareholder redeems its Investor Shares before the Equalisation Credit (as adjusted for depreciation and appreciation as described above) has been fully applied, the Shareholder will receive additional redemption proceeds equal to the Equalisation Credit then remaining multiplied by a fraction, the numerator of which is the number of Investor Shares being redeemed and the denominator of which is the number of Investor Shares held by the Shareholder immediately prior to the redemption in respect of which an Equalisation Credit was paid on subscription.

Class B Shares

The Investment Manager shall receive from the Company in respect of the Sub-Fund a performance fee in respect of each Investor Share outstanding on each Valuation Day equal to 10% of the amount by which the NAV per Share exceeds the Base Net Asset Value per Share.

The Base Net Asset Value per Share is the greater of the Net Asset Value per Share at the time of the issue of that Investor Share and the highest Net Asset Value per Share achieved as at the end of any previous Calculation Period (if any) during which such Investor Share was in issue. The Performance Fee in respect of each Calculation Period will be calculated by reference to the Net Asset Value before deduction for any accrued Performance Fee.

The Performance Fee will be deemed to accrue as at each Valuation Day and shall be payable quarterly in arrears and normally within fourteen (14) calendar days of the end of each Calculation Period.

The Performance Fee will be calculated in respect of each Calculation Period.

In the case of Investor Shares redeemed during a Calculation Period, the accrued Performance Fee in respect of those Investor Shares will be payable within fourteen (14) calendar days after the date of redemption. In the event of a partial redemption, Investor Shares will be treated as redeemed on a first in, first out basis.

A transfer of Investor Shares will be treated as if there was a redemption of such Investor Shares by the transferor and a subscription (at the most recent Offering Price) for such Investor Shares by the transferee on the date of the transfer for the purposes of the Performance Fee.

If the Management Agreement is terminated during a Calculation Period, the Performance Fee in respect of the then current Calculation Period will be calculated and paid as though the date of termination were the end of the relevant Calculation Period.

The Investment Manager may from time to time and at its sole discretion and out of its own resources decide to rebate to intermediaries and/or Shareholders part or all of the Management Fee and/or Performance Fee. Any such rebates may be applied in paying up additional Investor Shares to be issued to the Shareholder, or may (at the discretion of the Investment Manager) be paid in cash.

With respect to any appreciation in the value of those Investor Shares from the Net Asset Value per Share at the date of subscription up to the Peak Net Asset Value per Share, the Performance Fee will be charged at the end of each Calculation Period by the automatic forfeiture by the Shareholder in favour of the Sub-Fund of such number of the investor's Investor Shares as have an aggregate Net Asset Value (after accrual for any Performance Fee) equal to 10% of any such appreciation (a "**Performance Fee Redemption**"). The Sub-Fund will not be required to pay to the investor the redemption proceeds of the relevant Investor Shares. Performance Fee Redemptions are employed to ensure that the Investor Fund maintains a uniform Net Asset Value per Share. As regards the investor's remaining Shares, any appreciation in the Net Asset Value per Share of those Investor Shares above the Peak Net Asset Value per Share will be charged a Performance Fee in the normal manner described above.

Class B Shares (10% performance fee)

Peak NAV	=	100
Gross NAV* at date of purchase	=	90
NAV at date of purchase	=	90

Gross NAV* on the Valuation Day	Total Performance Fee due from Investor	Portion of Performance Fee to be paid by deduction from Gross NAV*	Portion of Performance Fee to be redemption of Shares from Investor for no consideration (Performance Fee Redemption)	NAV (net of all fees)
110	2	1	1	109
100	1	0	1	100
90	0	0	0	90

* Gross NAV is equal to the Net Asset Value per Share before accrual of the Performance Fee.

- (B) If Investor Shares are subscribed for at a time when the Net Asset Value per Share is greater than the Peak Net Asset Value per Share, the investor will be required to pay an amount in excess of the then current Net Asset Value per Share equal to 10% of the difference between the then current Net Asset Value per Share (before accrual for the Performance Fee) and the Peak Net Asset Value per Share (an "**Equalisation Credit**"). At the date of subscription the Equalisation Credit will equal the Performance Fee per Share accrued with respect to the other Investor Shares in the Sub-Fund (the "**Maximum Equalisation Credit**"). The Equalisation Credit is payable to account for the fact that the Net Asset Value per Share has been reduced to reflect an accrued Performance Fee to be borne by existing Shareholders and serves as a credit against Performance Fees that might otherwise be payable by the Sub-Fund but that should not, in equity, be charged against the Shareholder making the subscription because, as to such Investor Shares, no favourable performance has yet occurred. The Equalisation Credit ensures that all holders of Investor Shares have the same amount of capital at risk per Share.

The additional amount invested as the Equalisation Credit will be at risk in the Sub-Fund and will therefore appreciate or depreciate based on the performance of the Sub-Fund subsequent to the issue of the relevant Investor Shares but will never exceed the Maximum Equalisation Credit. In the event of a decline as at any Valuation Day in the Net Asset Value per Share, the Equalisation Credit will also be reduced by an amount equal to 10% of the difference between the Net Asset Value per Share (before

accrual for the Performance Fee) at the date of issue and as at that Valuation Day. Any subsequent appreciation in the Net Asset Value per Share will result in the recapture of any reduction in the Equalisation Credit but only to the extent of the previously reduced Equalisation Credit up to the Maximum Equalisation Credit.

At the end of each Calculation Period, if the Net Asset Value per Share (before accrual for the Performance Fee) exceeds the prior Peak Net Asset Value per Share, that portion of the Equalisation Credit equal to 10% of the excess, multiplied by the number of Investor Shares subscribed for by the Shareholder, will be applied to subscribe for additional Investor Shares for the Shareholder. Additional Investor Shares will continue to be so subscribed for at the end of each Calculation Period until the Equalisation Credit, as it may have appreciated or depreciated in the Sub-Fund after the original subscription for Investor Shares was made, has been fully applied.

If the Shareholder redeems its Investor Shares before the Equalisation Credit (as adjusted for depreciation and appreciation as described above) has been fully applied, the Shareholder will receive additional redemption proceeds equal to the Equalisation Credit then remaining multiplied by a fraction, the numerator of which is the number of Investor Shares being redeemed and the denominator of which is the number of Investor Shares held by the Shareholder immediately prior to the redemption in respect of which an Equalisation Credit was paid on subscription.
