### Objectives and Investment Policy

**The Investment Objective** of the Fund is to generate absolute returns.

The Investment Manager shall invest primarily in a diversified portfolio of: (i) listed transferable securities including equities, bonds, fixed income and other debt instruments; (ii) currencies; (iii) UCITS Funds; and (iv) eligible ETFs. The Investment Manager shall manage credit risk and will aim to minimise volatility through credit analysis and diversification over a broad base of issuers, industries and geographies. The Fund will generally invest in assets denominated in EUR, GBP, CHF and USD.

The Sub-Fund may invest in Real Estate Investment Trusts via UCITS-eligible ETFs and/or collective investment schemes and securities related to real assets (including but not limited to real estate and precious metals-related securities) such as equities, bonds, ETFs and collective investment schemes.

Subject to the “Investment and Borrowing Restrictions” set out in the Offering Supplement, the Fund will not implement any specific allocation thresholds in respect of the assets it may invest in.

For temporary or defensive purposes, the Fund may invest in short-term fixed income instruments, money market funds, cash and cash equivalents. The Fund may also hold cash and cash equivalents on an ancillary basis or cash management purposes, pending investment in accordance with its Investment Policy and to meet operating expenses and redemption requests.

The Investment Manager is also expected to invest in exchange traded and/or OTC FDIs (including options, forwards, futures, CFDs and swaps) and ETFs for investment and hedging purposes and the reduction of risk. The Fund will bear the associated costs and fees in connection with the use of such instruments. These fees will generally be payable to counterparties in OTC FDIs. Such counterparties are not expected to be related to the Company and/or the Investment Manager. The Company may also enter into foreign exchange linked OTC FDIs with the Custodian.

Shareholders may redeem their Investor Shares on any Redemption Day which shall be every Business Day. It is anticipated that any interest income generated by the Fund will be re-invested. The Fund should be viewed as a medium to long term investment.

### Risk and Reward Profile

The Fund’s rating reflects the nature of the expected investments and the corresponding risks to which the Sub-Fund is exposed, and places the Fund in category 4. It should be noted that even the lowest category on the indicator does not mean that the Sub-Fund is risk free. Simulated data is used in calculating the synthetic indicator and may not be a reliable indication of the future risk profile of the Fund. Various risk factors, including the risk factors below, may affect the value of the Fund’s investments and expose the Fund to losses. Furthermore, the rating shown is not guaranteed and may change over time.

**Exchange Rate Risk** - The Fund’s performance may be adversely affected by variations in the exchange rates between the base currency of the Fund and the currency in which the investments were made.

**Credit Risk** – money market instruments, bonds or other debt instruments held for a fund involve credit risk represented by the possibility of default by the issuer.

**Counterparty Risk** – A counterparty (i.e. any institution providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments) may become insolvent and may fail fulfilling its obligations to the Fund.

**Operational Risk** – If a custodian or sub-custodian appointed by or on behalf of the Fund were to become insolvent, or act negligently or fraudulently this could lead to the substantial loss of securities held in custody for the Fund.

**Liquidity Risk** – Certain types of assets or securities may be difficult to buy or sell, particularly during adverse market conditions. This may affect the ability to obtain prices for the assets and may therefore prevent the raising of cash to meet redemptions of Investor Shares.
