The Offering Supplement constitutes an offer of Investor Shares in the Sub-Fund which is comprised of three (3) classes of Investor Shares, the Class A Shares, the Class B Shares and the Class C Shares.

The offering of the Investor Shares at the Initial Offering Price opened on 14 August, 2018 and closes on the Closing Date. The Company shall issue Investor Shares in connection with appropriately completed Subscription Applications received during the Initial Offering Period, on the Business Day following the Closing Date. The Company is entitled to close the Initial Offering Period at any time prior to the Closing Date or to extend it beyond the Closing Date and this at its sole discretion.

During the Offering Period, the offer will be for Investor Shares at the Offering Price applicable on the relevant Subscription Day.

## Purchase, Transfer and Exchange of Shares

Investor Shares can be purchased at the prevailing Offering Price, by submission to the Company at the office of the Administrator of the relevant and properly completed Subscription Application prior to the cut off time for receipt of applications for the relevant Share Class.

Payment should be effected as described in the Payment Forms which are available from the Investment Manager and/ or the Administrator. At the Company's discretion, payments may be accepted other than in cash. All payments for Investor Shares must be made in the base currency of that class of Investor Shares and be received in Cleared Funds in any event before the Subscription Notice Deadline.

Any applicable bank charges will be borne by the Subscriber.

If the Subscription Application or associated Cleared Funds are not received as required, then the Subscription Application may be rejected or held over until the next Subscription Day at the discretion of the Company. The Settlement Day shall be the related Subscription Day.

The Administrator will generally issue written confirmation of ownership to a Shareholder within two (2) Business Days after the applicable Subscription Day. Investor Shares will be issued on the applicable Settlement Day.

Full details of the application and subscription process appear in the Section of the Prospectus entitled "**Purchase, Exchange and Transfer of Shares**".

A Subscription Application and other related documentation will be provided upon request by the Administrator, the Investment Manager or by an Authorised Distributor.

## Redemption of Shares

Investors are directed to the Prospectus where the procedures relating to the Redemption of Investor Shares and the conditions applicable thereto are outlined.

Investor Shares can be redeemed at the prevailing Redemption Price, by submission to the Company at the office of the Administrator of the relevant and properly completed Redemption Notice before the Redemption Notice Deadline. Redemption requests received after the cut off time for receipt of redemption requests will be processed on the following Redemption Day.

In terms of the Memorandum and Articles, redemption requests and/or exchange requests are, once made, irrevocable. A Redemption Notice if accepted by the Company will be effective as at the applicable Redemption Day. Investor Shares shall be cancelled on the relevant Redemption Day and redemption requests will generally be settled within three (3) Business Day from the relevant Redemption Day.

Full details of the redemption process appear in the Section of the Prospectus entitled "**Redemption of Shares**".

A Redemption Notice and other related documentation will be provided upon request by the Administrator, the Investment Manager or by an Authorised Distributor.

## Deferral of Redemption

The Directors may in their exclusive discretion limit the total amount of redemptions effected on any Redemption Day to 10% of the outstanding Investor Shares in the Sub-Fund on that day (in each case before processing request for the issue of the Investor Shares or requests for redemptions of such Investor Shares for such Redemption Day). In such circumstances the Company or its authorised agent may scale down pro rata the number of Investor Shares to be redeemed in response to each request for redemption to the extent necessary to ensure that the foregoing limit is not exceeded, and shall carry forward the balance for redemption as at the next Redemption Day and so on to each succeeding Redemption Day until each request has been complied with in full. Requests for redemption carried forward from an earlier Redemption Day shall have priority over later requests.

## Risk Factors

Investors are directed to the Offering Memorandum where the risk factors applicable to investment in shares of the Company, including in Investor Shares, are explained.

### *Foreign Exchange Trading Risks*

Currency trading is volatile, highly leveraged and may be illiquid. Currency spot, forward and option prices are highly volatile. Such prices are influenced by, among other things: changing supply and demand relationships; government trade, fiscal, monetary and exchange control programs and policies; national and international political and economic events; and changes in interest rates. In addition, governments, from time to time, intervene directly and by regulation in these markets with the specific intention of influencing such prices.

Furthermore, as an added risk in these volatile and highly leveraged markets, it is not always possible to liquidate positions to prevent further losses or recognize unrealized gains. Principals in the interbank currency markets have no obligation to continue to make markets in the currencies traded. There have been periods during which certain banks and dealers have refused to quote prices for currencies or have quoted prices with an unusually wide spread between the price at which they are prepared to buy and that at which they are prepared to sell. The inability to liquidate currency positions creates the possibility of the Sub-Fund being unable to control its losses.

### Real Estate Investment Trusts

A real estate investment trust ("REIT") is a company that owns, operates and/or finances income-producing real estate or related assets. REITs often trade on major exchanges like other securities and provide investors with a liquid stake in real estate. The majority of REITs specialise in a specific real-estate sector such as office buildings, apartments, warehouses, hotels, resorts and shopping complexes, among others. Unlike other real estate companies, a REIT does not typically develop real estate properties to resell them. A REIT purchases and develops properties to primarily operate them as part of its own investment portfolio. REITs are subject to certain risks including but not limited to: (i) investment risk which may be significant due to factors that may affect the real estate market such as property valuation, interest rates, debt, and higher tax payments; (ii) management fees (i.e. certain REITs may charge high transaction and administrative fees); (iii) minimal control (i.e. operational decisions may be taken such as changes in ownership and strategies applied to market trading); and (iv) changes in geography, corporate, regulatory and tax laws.

### Investment in Collective Investment Schemes managed by the Investment Manager

The Sub-Fund may invest in collective investment schemes managed by the Investment Manager. In this case, the Investment Manager shall re-imburse the Sub-Fund any Investment Management Fee and/or Performance Fee, as well as any Subscription and/or Redemption Fees, received in connection with the Sub-Fund's investment in the target collective investment schemes.

In all other cases, that is where the Sub-Fund invests in collective investment schemes that are not managed by the Investment Manager, the Sub-Fund may (besides management fees and performance fees which will be reflected in the performance of the investment) incur charges such as subscription and redemption fees upon investing or redeeming its units or shares. Such charges will be borne by the Sub-Fund as with any other brokerage or transaction charges or expenses as set out in the Prospectus.

### Exchange-Traded Funds

The Sub-Fund may invest in exchange-traded funds ("ETFs"). An ETF trades like common stock and represents a fixed portfolio of securities designed to track a particular market index. The risks of owning an ETF generally reflect the risks of owning the underlying securities they are designed to track, although lack of liquidity in an ETF could result in it being more volatile and ETFs have management fees that increase their costs. ETFs are also subject to other risks, including: (a) the risk that their prices may not correlate perfectly with changes in the underlying index; and (b) the risk of possible trading halts due to market conditions or other reasons that, in the view of the exchange upon which an ETF trades, would make trading in the ETF inadvisable. An exchange-traded sector fund may also be adversely affected by the performance of that specific sector or group of industries on which it is based.

### Performance Fee

The Company will not adopt an equalisation methodology for the calculation of the Performance Fee due to the Investment Manager in respect of the Investor Shares. Shareholders may according underpay/over pay any Performance Fee due to the Investment Manager when subscribing and/or redeeming their Investor Shares.

## **Pricing**

The calculation of the NAV of the Sub-Fund and of the NAV per Share shall be effected by the Administrator as at the close of business on every Valuation Day on the basis of the closing prices on that day and in such manner as is stated in the Prospectus under the section entitled "**Net Asset Value Calculation**". The Offering Price will be available from the Administrator and will be published on such websites or publicly available sources as the Directors may determine at their discretion.

## **Duration of the Sub-Fund**

The Duration of the Sub-Fund and the Classes is indefinite.

---

# FEES PAYABLE BY THE SUB-FUND

---

## Investment Management Fee

The Company will pay the Investment Manager an Investment Management Fee of 1.50% per annum of the NAV. The Investment Management Fee will accrue on every Valuation Day and shall be payable quarterly in arrears.

The Investment Manager will be reimbursed for all properly incurred and approved out-of-pocket expenses.

## Performance Fee

The Investment Manager shall also receive from the Company in respect of the Sub-Fund a Performance Fee on the appreciation in the Gross Asset Value ("**GAV**") of the Sub-Fund over the previous High Watermark ("**HWM**") multiplied by the average number of Investor Shares in issue in the related class of Investor Shares from the end of the previous Calculation Period on which a Performance Fee was paid.

The Performance Fee in respect of each Calculation Period will be calculated by reference to the Net Asset Value ("**NAV**") before deduction for any accrued Performance Fee.

For each Calculation Period, a Performance Fee shall be payable in the amount of 15% in respect of the Investor Shares on the appreciation of the Sub-Fund's GAV over the previous HWM.

Once a Performance Fee has been paid, subsequent Performance Fees will be payable only once the Sub-Fund's GAV exceeds the new HWM. The HWM is the higher of: (a) the Initial Offering Price and (b) the highest NAV per Share on which a Performance Fee was paid.

The Performance Fee will be deemed to accrue as at each Valuation Day and shall be payable quarterly in arrears and normally within fourteen (14) calendar days of the end of each Calculation Period.

The Company will not adopt an equalisation methodology for the calculation of the performance fee due to the Investment Manager. Shareholders may according underpay/ over pay any performance fee due to the Investment Manager when subscribing and/ or redeeming their Investor Shares.

The Administrator is entitled to receive a minimum Administration Fee of EUR 28,000 per annum.
